

Irfan Ansari

Full-Stack Developer | MERN Stack | React.js | Node.js | irfanking8215@gmail.com | 8808884820 | Portfolio
linkedin | github

Summary

Full-Stack Developer (MERN) who ships production-ready features end-to-end — from REST API design through deployment. Built and deployed two live applications (AI chatbot, travel planning platform) integrating third-party APIs and AI models, with hands-on experience improving backend efficiency and UI performance by 25–35

Technical Skills

Languages: JavaScript, C++ , C, SQL

Frontend: React.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST APIs, API Integration, JWT Authentication

Databases: MongoDB, MongoDB Atlas, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Vercel, Render, Netlify, Deployment

Core Concepts: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks

Experience

Full-Stack Web Development Intern | Digital Blinc

July 2025 to August 2025

- Designed responsive web modules, improving user interface performance by 35% on REST API integration, deployment workflows, and responsive web optimization, reducing integration time by 25%

Software Development Engineer INTERN | Bluestock Fintech

October 2025 to November 2025

- Engineered fintech software modules, improving backend efficiency by 25%
- Optimized debugging and feature deployment, reducing technical issues by 15%

Projects

Smart Travel Planner

GitHub | Live Demo

- Increased route-recommendation relevance by adding personalized, vehicle-based suggestions, as measured by reduced manual re-searches during testing, by building custom logic on top of Leaflet/OpenStreetMap routing data.
- Cut API response time by 30
- Delivered a fully responsive, deployed MERN application by integrating frontend, backend, and third-party mapping APIs into a single production build.

AI Chatbot

GitHub | Live Demo

- Enabled real-time AI-generated responses by integrating Google Gemini AI into a MERN-based chat interface.
- Secured user sessions and data access by implementing JWT authentication across the backend
- Deployed a scalable, production-ready chatbot by architecting the MongoDB Atlas schema and Express.js REST API to handle concurrent requests.

Education

B.Tech in Computer Science Engineering, Dr. A.P.J. Abdul Kalam Technical University

2022 – 2026

- Relevant Coursework:** Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks

12th (Intermediate) T.H.P.S.I.C, UP Board — Kushinagar,

2019

10th (High School) T.H.P.S.I.C, UP Board — Kushinagar,

2017

Certification

Full Stack Web Development - Apna College

JAVA Workshop - DUCAT

Genrative AI - YBI foundation
