PROFESSIONAL SUMMARY

Full Stack Developer with 6 months of professional internship experience building end-to-end web features across React and Next.js frontends and PHP/Laravel backends, with MongoDB and SQL data layers. Strong foundation in Data Structures, REST API design and integration, and authentication, with hands-on experience delivering production features as part of a development team. Open to relocating across India for full-time opportunities.

SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL, PHP

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux

Backend / Database: PHP/Laravel, MongoDB, SQL, REST API Design & Integration

Tools: Git, GitHub, Postman, Authentication (JWT/OTP)

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

SOFT SKILLS

Quick Learner | Adaptability | Agile Team Collaboration | Problem-Solving | Ownership & Initiative | Communication

EXPERIENCE

Software Engineer Intern — Datasoft Technologies, Faridabad, Haryana

Mar 2026 – Sep 2026

- Contributed across the stack to existing software projects using React, JavaScript, Tailwind CSS, and PHP/Laravel where backend support was required.
- Integrated the Gemini API and built user authentication flows spanning frontend UI and backend endpoints.
- Developed and improved admin dashboards end-to-end, from data model and API to responsive UI.
- Built an admin panel independently for an HRM project, covering both the dashboard interface and underlying management workflows.
- Worked within a development team on feature implementation, debugging, code improvements, and production deployment.

PROJECTS

Smart Travel Planner — Final Year Project (Team Lead)

GitHub: <https://github.com/IrfanAnsari1212/smartTravel> | Live Demo: <https://smarttravel-1.onrender.com/>

- Led a project team to design and build a full-stack travel-planning platform with a React frontend and API-driven backend.
- Integrated the Gemini API and Leaflet with Geocoding APIs to power recommendations, map visualization, and route search.
- Iterated through multiple platform updates, extending functionality beyond the original final-year build.
- Architected the platform to support core travel-planning functionality in low-connectivity conditions.

Clinic Website & Admin CMS — Freelance Client Project

GitHub: <https://github.com/IrfanAnsari1212/emergentPhysio> | Live Site: <https://emergent-physio.vercel.app/>

- Delivered a production full-stack website and custom admin CMS for a real healthcare clinic client, built with Next.js 15 and MongoDB and deployed live on Vercel.
- Built an admin dashboard with full CRUD management for appointments, home-visit requests, doctors, services, testimonials, gallery, and blog content, all editable without code changes.
- Implemented secure admin authentication with OTP-based password recovery via the Resend email API.
- Optimized for local SEO with schema.org structured data, a dynamic sitemap, and metadata across 9+ service landing pages.

EDUCATION

B.Tech in Computer Science and Engineering — Dr. A.P.J. Abdul Kalam Technical University (BBDIT), Ghaziabad, Uttar Pradesh

2022 – 2026

CGPA: 7.78 / 10

CERTIFICATIONS

Full Stack Web Development (Apna College) | Java Workshop (DUCAT) | Generative AI (YBI Foundation)
